

Appendix 2. Graphical depictions of 84 models listed in Appendix 1. The fitted black lines correspond to the mean parameter estimates in the equations and in Appendix 1. The dark shading corresponds to the confidence interval for age, and light shading corresponds to the prediction interval for age.

Appendix 2. Continued. (model numbers correspond to models listed in Appendix 1);

Appendix 2. Continued. (model numbers correspond to models listed in Appendix 1);

Appendix 2. Continued. (model numbers correspond to models listed in Appendix 1);

Age (yr), gamma distribution
