Purpose of Conference

Intent of conference is to provide a forum to:

- a) *share the latest advances* in our fields,
- b) interact within this unique *opportunity for networking* that the format of the conference provides, and
- c) build new and lasting research *partnerships and friendships*.

Our Technical Program

Carbonate Pore Systems

Monday – Talks and Posters

- **Sedimentologic, Stratigraphic, and Diagenetic Controls on Development of Carbonate Pore Systems**
- **Multiscale Prediction and Upscaling of Carbonate Porosity and Permeability**
- **Interactions in Multi-Modal Pore Systems**

- **Posters 1 to 9 and Core Workshop Previews**

Tuesday – Field Trips, Conference Reception

T1 – Pipe Creek

T2 – Evaporitic karst

T3 – Longhorn Cavern

T4 - Canyon Lake Fault

Our Technical Program

Wednesday - Core Workshop, Posters

- **Mississippian Pekisko Formation, Northern Alberta Canada**
 - **Slopes and basin, Permian Basin, West Texas**
 - **“Mississippian Limestone”, Southern Mid-Continent U.S.A.**
 - **Cambrian microbial reefs, Mason County Texas**
 - **Vaca Muerta Formation, Neuquén Basin Argentina**
 - **Valanginian shelf margin, North-Central Gulf of Mexico**
 - **Cenomanian–Turonian Mishrif Formation, Southeastern Iraq**
 - **Tengiz Field, Kazakhstan**
 - **Pipe Creek Reef, Central Texas**
-
- **Posters 10 to 31**

Thursday – Talks and Posters

- **Microporosity in Conventional and Unconventional Carbonate Reservoirs**
 - **Visualization, Quantification, and Modeling of Carbonate Pore Systems and Their Fluid Flow Behavior**
-
- **Posters 32 to 44**

Our Technical Program

- Presentations representing 16 different countries (Australia, Belgium, Brazil, Canada, China, Denmark, France, Malaysia, Saudi Arabia, Scotland, South Africa, Switzerland, Turkey, UAE, UK, USA)
- Presentations from academia (64%), industry (32%) and government (4%)
- 70% of the first (presenting) authors identified as a Student or Young Professional

SEPM/CSPG Special Publication will follow the Conference
