

CENOMANIAN - CAMPANIAN BIOSTRATIGRAPHIC ZONATION FOR THE WESTERN INTERIOR BASIN

WITH DEFINING INDEX TAXA LOCATED IN OR PROJECTED TO THE PUEBLO, CO REFERENCE SECTION;

WITH CORRELATION TO THE PORTLAND AND ANGUS CORES BASED ON LITHOSTRATIGRAPHIC MARKERS.

KEY

- FAD and LAD indicators for index taxa
- FAD or LAD projected into Pueblo section based on lithostratigraphic correlation
- Stage boundary correlation
- Bentonite correlation
- Lithostratigraphic correlation (member or unit level)
- Estimated biozone boundary (unconstrained by FAD/LAD)
